

To access the dashboard to manage your website domains, the easiest way is through the Sites @ Grinnell website.

1. Navigate to sites.grinnell.edu.
2. Along the top of the screen, within the website header, click on the page titled “cPanel Dashboard”.
3. Sign into your Grinnell email address when prompted.

You now have access to the main cPanel dashboard. It will look something like this:

In your cPanel Dashboard, you will be able to manage your domains, your files, and any installed applications, as well as some other features. The cPanel dashboard has everything you need for managing your Sites @ Grinnell account.
